- Rodeo -

Our recycled leather is made of 70% leather residue and 30% polyester and encloses two layers. The bottom layer is composed of recycled leather to ensure the natural and unique appearance. The top layer is made of polyester for strength and durability. Its main benefits are the high tenacity and low water absorption which makes it perfectly appropriate for high intensity home use.

- Warm materials -

The BePureHome Rodeo collection is pure, tough and unique. During the leather manufacturing process, factories have lots of cutting wastage. With these leather off-cuts, a new material is created: recycled leather. Combine this highly durable material with one of our cozy plaids to complete the look.
